

RADSAGA

**RADiation and Reliability Challenges
for Electronics used in Space,
Avionics, on the Ground and at
Accelerators**

**A Marie Skłodowska-Curie
Actions Innovative Training
Network coordinated by
CERN**

**APPLY NOW TO DO YOUR
PHD WITH RADSAGA!**

@radsaga_itn 
cern.ch/radsaga

**Launch your career in domains at the forefront of technology.
Join us to do your PhD in a truly international
and multidisciplinary network!**

**RADSAGA is looking for electronic engineers with a
background in radiation effects and physicists with knowledge
in electronics, radiation effects or semiconductors**

Where would you like to work?

CERN • 3D PLUS
Friedrich-Alexander University of Erlangen-Nuremberg
University of Jyväskylä • KU Leuven
University of Groningen • University of Montpellier

RADSAGA is a Marie-Skłodowska-Curie Action, funded
by the European Union's Horizon 2020 Research and
Innovation programme under grant agreement 721624
